

Winter walking trails in Bad Mitterndorf

Imagine you are strolling along one of our winter walking trails through natural forest, alongside a burbling stream, or across the wide open countryside that's an alpine meadow in the summer months. Whichever you choose, you will be amazed by the beauty of the scenery and the natural peace of the Bad Mitterndorf valley. There are over 25 km of winter walking trails, all of which are cleared and prepared to make winter hiking a relaxing pleasure. You can inhale our invigorating, crisp mountain air and when you feel like a break, you can drop into one of the cosy little Hütten (log cabin restaurants) that are dotted about the landscape – after a friendly chat with the locals, a mug of Glühwein or Jagatee, or perhaps a coffee and a homemade pastry, you'll be ready to tackle the home stretch!
